

Church Official Seeks Help to Alter Ballpark

"Help wanted — 7000 volunteer workers." This announcement was made by Leonard Olliff, presiding minister of the local Torrance congregation of Jehovah's Witnesses this week.

According to Olliff, volunteers will be needed from all crafts and trades to transform Candlestick Park in San Francisco into a place of worship for the United Worshipers District Assembly, Aug. 29 to Sept. 3. Many from the local congregation have offered to fill out the volunteer service form which was handed out by the presiding minister. The form will then be sent to convention headquarters and processed by Wayne M. Knott

who has the responsibility of seeing that each applicant is placed where needed.

"SINCE THERE will be over 50,000 in attendance at Candlestick Park, many from Torrance and other parts of the state, we will want to make their stay a pleasant one," the presiding minister said, adding

that, "the entire family can receive maximum benefit of the assembly when all can be and efficiently."

A complete cafeteria and dining room as well as book rooms, first aid facilities and information, will be among the twenty departments that will be set up and manned by volunteer workers. The six-day program will feature Bible discourses and dramatizations designed to help each member of the family live in harmony with Bible principles.

NOTE OPENING . . . On hand to help celebrate the opening of Al Ortale Rambler during the week end were Del Jordan, tune-up man for the firm and responsible for the Rambler entry from Torrance in the recent Youth Safety Run; Gil Hebert and Darrell Snow, shown here with trophies they collected of the run; Officer A. L. Jackson of the Torrance Police Department, and Ortale.

Area Storm Drain Bids Due Aug. 11

Construction bids for two major bond issue projects the Torrance area will be opened by Flood Control District officials tomorrow morning, was announced this week by Supervisor Kenneth Hahn's office.

The largest of the two projects, the Torrance Bond Issue drain project 586, will be bid in four sections, three of which are in North Torrance. The area is included in the second supervisorial district represented by Supervisor Hahn.

A small portion of the overall project 586 is in the fourth supervisorial district, represented by Supervisor Byron Chace. The second project, which was combined with project 586 is the Walteria storm drain, project 585, which is entirely in the fourth district.

LINE A of the Torrance drain will be built south on Glenburn Ave. in North Torrance from an existing drain a short distance south of Artesia Blvd. It will extend south to 182nd crossing west 182nd St. to Prairie Ave.

Hahn's office pointed out that construction of this line will eliminate the severe flooding of 182nd St. which occurs with every rain of any size. A small portion of the drain, passing under the San Diego Freeway has already been built as an integral part of the freeway construction.

Line B of the drain starts at Dominguez channel at Crenshaw Blvd. and then extends north in Crenshaw to 180th Beach Blvd.

Line C begins at Dominguez channel at Crenshaw and extends south for approximately 300 feet, then southwest to Elgar Ave. and 188th St., then south to Elgar to 10th St.

THESE THREE sections of the drainage system will carry storm waters to a newly improved section of Dominguez channel.

Bids were prepared under the direction of Torrance City Engineer Walter N. Nollan.
